Done online.uen.org

1: Name of assessment open.

2: Your name, when it was started and the amount of questions in the whole assessment.

3: Time you started (in military time), time allowed for the assessment, how much time you have left.

4: Question Status.

Here is the Time and Questions status. Pay close attention to this, as you don't want to run out of time, or accidentally skip any questions.

The screenshot shows a Blackboard quiz interface. At the top, there is a 'Time' section with a current time of 13:18:35. Below this, it shows 'Allowed' time as 01:00:00 and 'Remaining' time as 00:59:29. The 'Question Status' section includes three options: 'Unanswered' (represented by a yellow circle), 'Answer not saved' (represented by a red square with an exclamation mark), and 'Answered' (represented by a blue checkmark). Below the status section is a grid of 15 question indicators, numbered 1 through 15. Each indicator consists of a yellow circle with a blue underline, indicating that all 15 questions are currently unanswered.

Here is the first question. It will show what number it is, and how many points it is worth. After you answer MAKE SURE YOU SAVE YOUR ANSWER. Your answers can be changed later as needed...

1. (Points: 1.66)

Placebo effects occur when

- a. subjects are influenced by the social desirability bias
- b. due to their expectations, subjects experience some change from a nonexistent or ineffective treatment
- c. the sample is not representative of the population
- d. two variables are confounded

Save Answer

NOTE: If you don't save your answer, no matter if you got the question right or not, it **will not record it and automatically mark it WRONG.**

You can finish your assessment at anytime. If you didn't save your answers along the way, or are afraid you missed one, hit **SAVE ALL** before you click **FINISH**.

Time spent: [00:05:40](#)
Total score: 20/25 = 80% Total score adjusted by 0.0 Maximum possible score: 25

Done

1.

Placeho effects occur when

- 1: Attempt number out of how many attempts are available.
- 2: Title of the assessment you took.
- 3: The time you started and finished the assessment.
- 4: Time it took you to take the assessment.
- 5: Your score on the current attempt.
- 6: "Curved" Grading.

7: The maximum amount of points possible.

Reviewing your graded answers

1.

Placebo effects occur when

| Student Response | 2 Value | Correct Answer | 4 Feedback |
|---|---------|---|------------|
| A. subjects are influenced by the social desirability bias | | | |
| 1  B. due to their expectations, subjects experience some change from a nonexistent or ineffective treatment | 100% | 3  | |
| C. the sample is not representative of the population | | | |
| D. two variables are confounded | | | |

Score: 1.66/1.66

After you see your grade, if the instructor allows, you can view what you got right and wrong immediately.

If not, you have to wait until the instructor grades it.

1: This symbol denotes what you answered.

2: Shows what your % was. For most assessments, this is all or nothing.

3: This symbol will be next to the right answer. This symbol is always a green box with a white checkmark **WHETHER OR NOT YOU GOT THE ANSWER RIGHT OR NOT**. Be careful that you don't assume because it is a checkmark you got the question right!

4: Any feedback from your instructor will be listed here.
