

# TIPS TRICKS<sup>AND</sup> HOW TO...

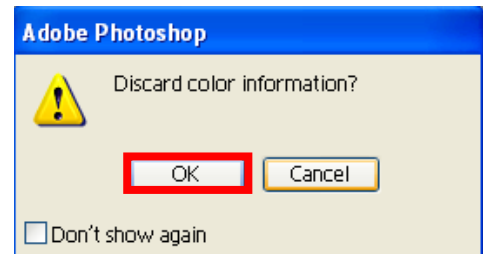

## Change a color photo to black and white using Adobe Photoshop 7.0

*\*\*Note: This adjustment is irreversible! Make sure you have a color copy saved elsewhere- this will remove all color from your photograph and you will not be able to get it back!*

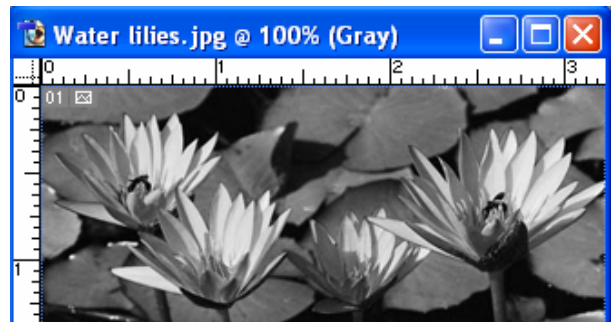

From the “Image” menu, choose “Mode” and “Grayscale.”

A warning box will appear asking if you want to discard your color information, to continue click “OK.”

Your image is now black and white.
